

CORPORATION TAX AMENDMENT GOES

Taft's Favorite Measure, Drawn By Atty-Gen. Wickersham, Passed by the Senate.

INCOME TAX WAS REJECTED

Vote Taken Just Before Adjourning In Evening—Debate Was More Animated Than Usual.

Washington, July 2.—The corporation tax amendment suggested by President Taft, drawn by Atty-Gen. Wickersham, and presented to the senate by Mr. Aldrich, chairman of the committee on finance, is an integral part of the tariff bill as that bill now stands.

The senate reached a vote on the proposition shortly before adjourning at 7 o'clock this evening and the amendment was rejected by the large vote of 69 to 11. With all modifying amendments disposed of, many Democrats voted with most of the Republicans for the amendment.

THE TEST VOTE

The test vote on the substitution of the corporation tax amendment for the income tax provision, and on that vote 45 senators cast their ballots in the affirmative and 31 in the negative. On this ballot all of the Democratic votes were cast in favor of the income tax, which also received the support of a number of the insurgent Republicans.

The income tax question disposed of, the senate tomorrow will enter upon the administrative features of the tariff bill, probably taking up the maximum and minimum rates provisions.

The reaching of a vote came as somewhat of a surprise to a large majority of the senators, but not to Senator Aldrich and his intimate advisers. Mr. Aldrich himself had been confident from the time of his arrival in the senate early in the day, after a brief vacation, that he would succeed in getting a vote before adjourning.

The debate was somewhat more animated than yesterday and there was a steady fire of oratory from the beginning of the session at 10 o'clock until 4:30.

During that time, Senators Heyburn, Hughes, Cummins, Newlands, Rayner, Brandegee, Root and Aldrich discussed all phases of the income tax question. Of these, Mr. Newlands was the last speaker. Mr. Aldrich then asked for a unanimous agreement for a vote on the corporation tax amendment tomorrow at 10 o'clock. Mr. Aldrich had previously been conferring with Messrs. Bailey, Cummins, Borah and other opponents of the amendment, and it was generally supposed that they had reached an understanding that the vote be taken tomorrow. When it seemed that such a compact was probable, Senator Cummins made an objection. His objection to the unanimous agreement not only had the effect of preventing the fixing of the vote for tomorrow, but of forcing it today.

Even after Mr. Cummins' objection had been recorded and Mr. Aldrich had called for a vote, it looked as if he would be disappointed. Senator Frazier, who has been a supporter of the income tax amendment, and an opponent of the corporation tax, was absent on account of illness. Mr. Bailey announced his determination to hold the floor until Mr. Frazier could make his appearance. Mr. Frazier soon came in and thereupon the Texas senator yielded.

THE FIRST VOTE

The first vote was upon the motion to substitute the corporation tax amendment for the Lodge countervailing duty amendment, and this prevailed by a vote of 45 to 31. The affirmative vote was entirely by Republicans.

Mr. Lodge immediately withdrew his amendment and a vote was taken on a motion to substitute the corporation tax amendment for the income tax amendment offered jointly by Messrs. Bailey and Cummins. The result was an exact counterpart of the vote on the previous roll call.

Next in order came the vote upon the corporation tax provision upon its

NERVOUS DYSPEPSIA

A Disease of the Nerves Not of the Stomach—Correct Home Treatment.

Nervous dyspepsia, unlike other forms of indigestion, is a disease of the nerves and it must be treated by strengthening the nerves and the use of a good tonic, such as Dr. Williams' Pink Pills, together with a generous and nourishing diet, is the correct home treatment.

After suffering with nervous indigestion for over two years Mrs. George P. Martin of No. 16 Admiral street, New Haven, Conn., tried Dr. Williams' Pink Pills. She tells of the great benefit she received as follows: "Following a severe run-down condition I began to suffer with nervous indigestion. Food distasteful to me and I was with difficulty I could eat; water and I had to live on milk almost entirely. I lost in weight and strength. I was so nervous that I could not bear to have any one visit me. I could not sleep nights or if I did I would wake up suddenly with a startled feeling. Whenever I ate much my stomach would bloat and there would be gas on it. On going up stairs or in over-working I was certain to have palpitation of the heart. I had dull, sick headaches which lasted for two or three days. During these attacks I was unable to do my household work. I felt sick all over and wanted to be undisturbed.

"The doctor's medicine failed to help me after a trial of over three months. I read about Dr. Williams' Pink Pills in a newspaper and began using them. I noticed a difference after I had taken only a few boxes and was cured when I had given the pills a good trial. My cure has been permanent and I feel like my household work. I felt sick all over and wanted to be undisturbed.

"Dr. Williams' Pink Pills are useful in cases of acid stomach and in the treatment of over-sensitive stomachs, in which the slightest irritation causes painful gnawing or burning sensations. This condition is common among growing girls.

Sufferers from dyspepsia in any form, who have found their condition unrelieved or actually growing worse while using ordinary remedies, would do well to try Dr. Williams' Pink Pills. They are sold by all druggists or by direct mail, postpaid, on receipt of price, 50c per box; six boxes, \$2.50. A diet book will be sent free, on application to the Dr. Williams' Medicine company, Schenectady, N. Y.

own merits, but before this ballot could be reached Mr. Bacon sought to change the action on two amendments presented by himself, both of which Mr. Aldrich moved to lay upon the table, which was done.

The first of these amendments provided for an exemption of education, charitable and religious institutions, and the second requested the taxation of bonds. In raising a point of order, Mr. Aldrich changed to drop the amendment that would exempt the income tax from the revenue. The form of expression seemed to incense the Georgia senator and he retorted sharply that he was "not surprised that Mr. Aldrich should assume such a manner because he had been dictating to the senate so long that he was accustomed to use language of that kind."

The final vote was then taken. It was upon agreeing to the corporation tax amendment as a part of the tariff bill. This amendment was adopted by the vote of 60 to 11.

ELKINS SUGGESTION

Senator Elkins asked if 1 per cent would not be a sufficient corporation tax. Mr. Aldrich replied that he had estimated that the revenue under the corporation tax proposition would be at least twice the amount estimated by the president, or \$50,000,000. If an era of economy was to be entered upon, he declared that "the bill, as it now stands, would be sufficient to meet all expenses of the government."

Senator Cummins then taking the floor, repeated the speech made by Mr. Root yesterday in support of the corporation tax. He scouted the idea that there was any likelihood that the people would attempt to conduct a campaign for the purpose of forcing approval of the supreme court of an income tax law if enacted.

Voting his opposition to the corporation tax, Senator Hughes of Colorado declared that the measure included a class of mutual institutions which were placed there for the purpose of insuring its repeal.

"Have we reached a point when the president can direct his attorney-general to draft a law, and then can point to us as committing suicide if senator in this body endeavor to correct errors that we may detect in his phrasing?" inquired the Colorado senator.

"This is not a tax on the business of corporations," declared Mr. Hughes. "It is a tax on incomes. That is what the president said in his speech of acceptance. That is what he told his attorney-general to draw—an income tax law that will meet the constitution of the United States."

"The fact is, the constitution of the United States has been upheld by the supreme court."

YELLOW FEVER AGAIN PREVALENT IN CUBA

New York, July 2.—Yellow fever is again prevalent in Cuba according to the Medical Record, which censures the island authorities for its recurrence, saying that they have concealed the fact by claiming that the fever is pernicious malaria or malignant jaundice.

The publication says further that the Gulf coast of the United States is menaced, that politicians on the island have monopolized the appropriations to fight the disease and that the proper step would be for the United States marine hospital service to take charge of affairs. The article sounds a warning that she same conditions which prevailed in Cuba before the United States took the revenue from the island exist now and that drastic action by the government is imperative.

SHORT SUMMER VACATION FOR SCHOOL CHILDREN

Chicago, July 2.—There are about 10,000 school children in the city who will have exactly 10 days summer vacation. Having left school last Friday, they will return next Tuesday morning, in many cases, to the very building where they spent the winter. And they are doing it of their own free will.

The board of education this year, begins its first experiment with a municipal "all the year round" school system. At 17 buildings in various parts of the city vacation school classes will be opened on Tuesday under the direction of the board and at five more places will be maintained by private agencies, with teachers from the regular system in charge.

WRIGHT AIRSHIP HAS AN ACCIDENT

In Midst of Splendid Flight it Suddenly Stopped Sixty Feet Above the Ground.

CAME DOWN WITHOUT INJURY.

Had Circled Field Twelve Times and Was Making Second Trial When Mishap Occurred.

Washington, July 2.—After making two successful flights late today, the Wrights' aeroplane met with a slight mishap, which will delay further tests until next week. The machine, with Orville Wright at the helm, was on its way around the Fort Myer drill grounds for the ninth time in its second flight, when suddenly the motor stopped, 60 feet above the ground. The great bird-like machine came to a standstill, then glided to the earth without injury to its occupants, at exactly the same place where the propeller blade broke last September, which resulted in the fatal accident at that time. In gliding today the machine struck a tree and was swayed around with such force that the skids were broken and the right wing badly ripped.

Despite the mishap, the two flights today were the most successful that Orville Wright has made at Fort Myer since his return to complete the government trials. On the first attempt he flew about the field 12 times in 11 minutes and 50 seconds, and on the second trial he had gone around eight times when the motor stopped. The flight was terminated. During both flights Mr. Wright went higher and faster than in the trials of the two previous days. It was estimated that his speed was about 37 miles an hour, on an average, although the machine probably exceeded 40 miles when flying with the breeze.

After the mishap Orville said he would not be ready for another flight before Tuesday at the earliest.

The motor on the aeroplane had been missing explosions for some time before it stopped. Evidently some changes had been made either in the spark or the motor, and it was developing more power than on the two previous days. Orville got away in splendid shape on the first trial, the machine traveling with greater speed than on the second. On the first flight landed within 50 feet of the starting tower, and the aeroplane came down "as light as a feather."

KANSAS CITY FOURTH OF JULY FATALITIES BEGIN

Kansas City, July 2.—The Fourth of July's toll of death in Kansas City began yesterday when Mrs. Thelma A. Hogan, 26 years' old, died of lockjaw, the result of the discharge of a toy pistol.

Wilbur, Mrs. Hogan's 6-year-old son, bought the toy, which caused his mother's death. He shot some of the "blanks" and the pistol became clogged. He took it to his mother and she was unable to clear it. The pistol went off, shooting a bit of paper wadding into her left hand. This brought on the fatal malady.

"Thousands of fatalities in Kansas City will say that this thing could not happen to any of their loved ones," Mr.

LOSS TO BREWERS THROUGH DRY WAVE

Milwaukee, Wis., July 2.—The enormous loss of business to brewers and distillers through the dry wave is shown in the report of the local internal revenue office for the year ending June 30, this report showing a reduction of the internal revenue amounting to \$222,000 for that period. Practically the entire loss is due to the falling off in the output of beer. This year's receipts were \$3,852,248 for beer alone, as against \$4,174,105 for the preceding year.

REPORT ON AFFAIRS OF BLACK REPUBLIC

American Commissioners Say That Great Britain is Encroaching on Liberia.

WILL NOT BE PERSISTED IN.

Assurances Given That on Proper Diplomatic Representation English Occupation Will Cease.

New York, July 2.—The American commission which has investigated the affairs of the black republic, Liberia, has prepared a report that Great Britain has encroached on and occupied 300 square miles of Liberian territory, according to a cablegram from Free Town, Sierra Leone. Assurances were given the commission by British authorities, however, that the English occupation of the disputed territory would cease on the proper diplomatic representations by this country.

Investigation conducted by the commission at Monrovia, the capital of Liberia, and at Free Town, the dispatch says, showed that the English forces occupying and administering Sierra Leone had overstepped the border which was surveyed in 1903 and had encroached on Liberian ground for a distance of 25 miles from the established border line.

The Liberians submitted to the commission proof that the British forces had by various means induced the Liberian border officers to retire inland and had then placed the original Liberian territory under the Sierra Leone government. British officials appeared before the commission and did not dispute these assertions, but gave assurances that the English were ready to retire as soon as the Washington government passed on the matter and brought the case to the attention of the colonial office in London.

NEW YORK WILL BE SUFFRAGE HEADQUARTERS

Seattle, July 2.—The American Woman Suffrage association decided today to establish national headquarters in New York City. When discussion of the removal from Washington was begun some of the delegates objected on the ground of the heavy expense of maintenance in New York. They were assured, however, that plenty of money was obtainable in New York and had been definitely pledged; that the suffrage movement was on every tongue in the great city and had entered on a new era.

The split in the Washington state organization vexes the national officers, who are trying to effect a compromise. The insurgents, mostly from Spokane, are holding sessions in a hall opposite the church in which the national convention meets. The national body today voted unanimously to send two delegates without vote, pending investigation of their protest to the national body. This concession the insurgents accepted and took the two seats.

Tonight the National College of Equal Suffrage league held a meeting, which was addressed by Miss Caroline Lexow of New York, Mrs. Eva Emery Dye of Omaha, Miss Adeline M. Parker of Seattle and Prof. Frances Squire Potter of Minnesota.

FOR MANHATTAN CONSCIENCE FUND

New York, July 2.—Two strange women in an automobile have created a new mystery by calling at the home of Comptroller Herman A. Metz and leaving a package containing \$675, "to be applied to the conscience fund of Manhattan." The comptroller has been unable to think of anyone who owes the borough that amount and who is afraid to have it known.

JAP LEGISLATORS SENTENCED.

Tokio, July 2.—Twenty-three Japanese politicians, members either of the present diet or of the preceding one, were given sentences of varying lengths today following their conviction of complicity in the graft revealed in the recent expose of the scandal. Five of the 23 were sentenced to 10 months imprisonment, four to serve seven months, five to serve five months, and nine to serve three months. Eight of them were members of the lower house of the recent diet and 13 of the last preceding diet. Only one of the men brought to trial was acquitted.

LUMBER FOR PANAMA CANAL.

Seattle, Wash., July 2.—Within the past 10 days contracts for \$800,000 feet of lumber have been placed with Washington mills by the isthmian canal commission.

The commission is still in the market for a large quantity of lumber, bids on which will be opened July 12 and 13. This lumber is to be used in repairing wooden flat cars.

The United States' engineers' office during the week placed an order with a Seattle mill for 455,000 feet of lumber for delivery at Manila.

MAY SUCCEED VON BUELOW.

New York, July 2.—A Berlin news agency today sends out a statement that Count Johann von Bernstorff, German ambassador at Washington, is now on the list of possibilities of succeeding to Prince von Buelow as chancellor of the empire. Count Bernstorff's success at Washington is said to be responsible for the mention of his name in the race for the chancellorship.

Baron Mumm von Schwarzenstein, German ambassador at Tokio and formerly secretary of the Washington embassy, is also named as a possibility.

A WOMAN'S FAILURE.

Kate Powers Has Tried Forty-Two Times to Commit Suicide.

San Francisco, July 2.—That Kate Powers was not born to die by her own hand is the conviction of the emergency hospital staff who treated the woman last night after the forty-second attempt she has made on her life in the past three years. Her favorite method of attempting to end her life is the chloroform route, which she has tried 25 times; four times she has waded into the ocean only to be washed up again soon as ever, and three times she has tried to hang herself with equally poor results.

There is more Catarrh in this section of the country than all other diseases put together, and in the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. NICKEL WISE AND FIFTEEN HUNDRED DOLLARS FOOLISH

Trenton, N. J., July 2.—The lack of a nickel to drop into a telephone slot and the obstinacy of an exchange girl cost Oscar F. Neldt, once councilman of this city, \$1,500 when his barn was destroyed by fire last night.

Neldt's barn caught fire about 9 o'clock and he hastened to a telephone in the neighborhood to summon a fire engine. Being told to drop a nickel into the slot, he discovered he had none. He told the girl that it was a case of life and death, but she insisted that fire headquarters could not be called up without the proper change being paid. Neldt, the exchange girl refused to notify the fire department, in despair Neldt fled to another place, finally sounding an alarm. It was too late when the fire engines reached the place and the barn and its contents were in ashes.
